### PROCLAMATION 2680

"I AM AN AMERICAN DAY," 1946

BY THE PRESIDENT OF THE UNITED STATES  
OF AMERICA

#### A PROCLAMATION

WHEREAS Public Resolution 67 approved May 3, 1940 (54 Stat. 178), provides in part:

That the third Sunday in May each year be, and hereby is, set aside as Citizenship Day and that the President of the United States is hereby authorized and requested to issue annually a proclamation setting aside that day as a public occasion for the recognition of all who, by coming of age or naturalization, have attained the status of citizenship, and the day shall be designated as "I Am An American Day."

That the civil and educational authorities of States, counties, cities, and towns be, and they are hereby, urged to make plans for the proper observance of this day and for the full instruction of future citizens in their responsibilities and opportunities as citizens of the United States and of the States and localities in which they reside.

WHEREAS the part played by this nation in bringing full victory to the Allied Powers during the past year has been possible only because of the strength, the devotion, and the sacrifices of millions of our young men and women on the battlefronts of the world, performing bravely their highest duties as citizens;

WHEREAS our numerous citizens of foreign birth have shown loyalty and fidelity to their new citizenship in the performance of all the tasks which helped to bring the final and complete victory over the enemies of the country which these citizens have made their own by naturalization;

WHEREAS the nations of the world now look to the United States for leadership and for assistance, as they repair the devastation wrought by the war;

WHEREAS our nation derives its chief strength to give leadership and assistance from the fact that its citizens, young and old, native-born and foreign-born, work together as one people; and

WHEREAS this year new thousands have entered upon the full responsibilities of citizenship either by reaching their majority or by naturalization:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, pursuant to the aforesaid public resolution do hereby designate Sunday, May 19, 1946, as "I Am An American Day," and do set that day aside as a public occasion for the honoring of American citizenship by giving special recognition to all our citizens who have recently become full members of the body politic.

And I urge Federal, State, and local officials and patriotic, civic, and educational organizations to plan and hold, on or about May 19, exercises designed to help our new citizens, both native-born and naturalized, to understand more fully the significance and responsibilities of citizenship in our self-governing Republic, so that they may be better prepared to add strength to the common purpose of all our citizens that this Republic shall continue to maintain its place of leadership and service among the nations of the world.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 12th day of March in the year of our Lord, nineteen hundred and [SEAL] forty-six, and of the Independence of the United States of America, the one hundred and seventieth.

HARRY S. TRUMAN

By the President:

JAMES F. BYRNES,  
Secretary of State.

#### PART 301—DOMESTIC QUARANTINE NOTICES MODIFICATION OF JAPANESE BEETLE QUARANTINE REGULATIONS

#### PART 726—FIRE-CURED AND DARK AIR-CURED TOBACCO

##### MARKETING QUOTA REGULATIONS, 1946-47

The Marketing Quota Regulations, Fire-cured and Dark Air-cured Tobacco, 1946-47 Marketing Year, Part I, is amended by striking out § 726.618 and inserting in lieu thereof the following:

§ 726.618 *State Committee adjustment of preliminary allotments for "old" farms.* The total of the allotments established for all "old" farms in each state by county committees (as corrected by or pursuant to direction of the State Committee), shall be adjusted by the State Committee so that the total of such allotments for all farms in the state does not exceed 105 percent of the total acreage allotted to all farms in the state in 1943. In making such adjustment the State Committee shall apply a uniform factor, not to exceed 118 per cent, to that part of the county established acreage allotment for each farm which is in excess of the 1943 acreage allotment for the farm. If, after applying the state factor, the total of all such allotments is less than 105 per cent of the 1943 acreage allotments for all farms in the state in 1943, such additional acreage as is necessary to bring the total of all such allotments to an amount equal to 105 percent of the total acreage allotted to all farms in 1943 shall be available to the State Committee for allocation to the counties for making further adjustments in the farm acreage allotments. Such additional acreage shall be allocated to the counties on the basis

of the percentage the county 1946 preliminary acreage allotment is of the State 1946 preliminary acreage allotment. The county committee, with the assistance of the community committees, will review the 1946 farm acreage allotments as adjusted by the State Committee, and will make upward adjustments where it is determined that such adjustments will bring the allotments more nearly in line with the allotments for other farms in the county which are similar with respect to land, labor, and equipment available for production of tobacco, notwithstanding the limiting factors in § 726.617. The total of all such adjustments in the county shall not exceed the acreage available for adjustment.

#### PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 12 as Amended  
Mar. 12, 1946]

##### DISPOSAL OF CERTAIN COTTON FABRICS FOR USE IN THE MANUFACTURE OF WASHABLE SERVICE APPAREL

The following amended direction is issued pursuant to PR 13:

(a) *Effect of this direction.* There is urgent need for cotton fabric suitable for use as body fabric in the manufacture of washable service apparel. As used in this direction "washable service apparel" means gowns, suits or coats for doctors, dentists, internes, orderlies, druggists and hospital use; or coats and apron sets for barbers, beauticians and food processors or handlers (including bakers, butchers, fishhandlers, dairyworkers, cooks and slaughterhouse workers).

The purpose of this direction is to make available, for the above uses, a supply of cotton fabric (Grade A 5-oz. white 140 sheeting) now held by the War Assets Corporation as surplus property under Declaration Nos. 6-14851 and 4-12602, amounting to about 4,641,521 yards, a supply of cotton fabric (7.5 oz. cotton drill) now held by the War Assets Corporation as surplus property under Declaration Nos. 3-20911 and 6-20036, amounting to about 2,393,503 yards, and a supply of cotton fabric (8.5 oz. herringbone twill, unshrunk) now held by the War Assets Corporation as surplus property under Declaration No. 3-20911 amounting to about 192,365 yards. It permits sales of such cotton fabrics to be made by the War Assets Corporation in the following manner only: The fabrics may be sold to persons permitted to purchase under paragraph (b) below.

Although this direction restricts sales to persons who will use the fabric for the purposes specified, it does not prohibit the War Assets Corporation from making sales, to the persons and for the purposes specified, upon such other terms and in such quantities as the War Assets Corporation may determine; and preference ratings have no effect upon any sales which may be made by the War Assets Corporation either by way of obliging it to sell or by way of determining as among the several buyers permitted by this direction, who shall get the cotton fabric from the War Assets Corporation.

(b) *Persons who may purchase.* No person may buy from the War Assets Corporation any of the surplus cotton fabrics referred to in paragraph (a) above, and the War Assets Corporation may not sell any of such fabric except where the purchaser is a manufacturer of washable service apparel or a governmental agency which will use the fabric in the manufacture of washable service apparel. In either case the purchaser must give a certificate with his purchase order in substantially the following form:

The undersigned certifies to the seller and CPA and subject to the criminal penalties of section 35 (A) of the United States Criminal Code, that (i) he is a manufacturer of washable service apparel, (gowns, suits or coats for doctors, dentists, internes, orderlies, druggists and hospital use; or coats and apron sets for barbers, beauticians and food processors or handlers), or it is a governmental agency which manufactures washable service apparel; and (ii) the fabric obtained under this purchase order will be used only to produce washable service apparel.

The standard certification in Priorities Regulation 7 may not be used instead of this certificate.

(c) *Obligations of persons giving certificates.* Any person giving the certificate described above may obtain and use the fabric he gets with the certificate only in accordance with its terms.

(d) *Expiration date.* Unless sooner revoked, this direction shall expire on April 30, 1946; but its expiration at that time shall not relieve any person who has obtained cotton fabric by use of the certificate referred to above, from the obligation of using the fabric in accordance with the certificate which he has given.

[Priorities Reg. 13, Direction 14 as Amended  
Mar. 12, 1946]

##### DISPOSAL OF CERTAIN COTTON FABRIC FOR USE IN THE MANUFACTURE OF RUBBER AND CAN- VAS FOOTWEAR

The following amended direction is issued pursuant to PR 13:

(a) *Effect of this direction.* There is an urgent need for cotton fabric suitable for use in the manufacture of rubber and canvas footwear of vulcanized construction, since cotton fabric is not readily obtainable in sufficient quantities from new production.

The purpose of this direction is to make available immediately for the above uses approximately 350,004 yards of 7.5 oz., unbleached cotton drill, now held by the War Assets Corporation as surplus property under declaration No. 6-21682; and approximately 276,000 yards of Grade A, 5 oz., white 140 sheeting, now held by the War Assets Corporation as surplus property under declaration No. 6-14851. It permits sales of these lots of cotton fabrics to be made by the War Assets Corporation only to persons permitted to purchase under paragraph (b) below.

Although this direction restricts sales to persons who will use the fabric for the purposes specified, it does not prohibit the War Assets Corporation from making sales, to the persons and for the purposes specified, upon such other terms and in such quantities as the War Assets Corporation may determine; and preference ratings have no effect upon any sales which may be made by the War Assets Corporation either by way of obliging it to sell or by way of determining as among the several buyers permitted by this direction, who shall get the cotton fabric from the War Assets Corporation.

(b) *Persons who may purchase.* No person may buy from the War Assets Corporation any of the surplus cotton fabrics referred to in paragraph (a) above, and the War Assets Corporation may not sell any of such fabric except where the purchaser is a manufacturer of rubber and canvas footwear of vulcanized construction and gives a certificate with his purchase order in substantially the following form:

The undersigned certifies to the seller and CPA and subject to the criminal penalties of section 35 (A) of the United States Criminal Code, that (i) he is a manufacturer of rubber and canvas footwear; and (ii) the fabric obtained under this purchase order will be used only for the manufacture of rubber and canvas footwear of vulcanized construction.

The standard certification in Priorities Regulation 7 may not be used instead of this certificate.

(c) *Obligations of persons giving certificates.* Any person giving the certificate described above may obtain and use the fabric he gets with the certificate only in accordance with its terms.

(d) *Expiration date.* Unless sooner revoked, this direction shall expire on March 31, 1946; but its expiration at that time shall not relieve any person who has obtained cotton fabric by use of the certificate referred to above, from the obligation of using the fabric in accordance with the certificate which he has given.

#### PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, Direction 6, as Amended  
Mar. 12, 1946]

#### ADJUSTMENT OF ORDERS, RECEIPTS AND DELIVERIES IN CASE OF WORK STOPPAGES

The following amended direction is issued pursuant to PR 32:

(a) *What this direction does.* As a result of work stoppages, strict application of CPA inventory restrictions might have an adverse effect on the production and distribution of critical materials. This direction permits continued receipts during the first fifteen days and certain further receipts to the extent described in paragraph (b), but requires adjustment of outstanding orders as explained in paragraph (c). It is designed to prevent the unnecessary accumulation of critical materials on the one hand, and on the other to encourage maximum production. To the extent that the provisions of this direction are inconsistent with the inventory limits of Priorities Regulation 32 or any other applicable order or regulation of CPA, this direction controls, unless the other order or regulation specifically states to the contrary.

(b) *Permitted receipts after suspension of operations.* (1) A person whose operations are suspended due to a work stoppage in his own plant or in a supplier's plant may continue to receive materials (except iron or steel in the forms and shapes listed in Schedule I to Order M-21) for a period not exceeding 15 days immediately following the suspension, to the extent that such receipts could legally have been accepted under Priorities Regulation 32, or other applicable orders and regulations if the plant had remained in operation. No new orders may be placed during this time to take advantage of this provision.

During this period, he may continue to receive any item of iron or steel, if his resulting inventory of that particular item will not exceed the smaller of the following amounts: (i) The minimum amount he would need during the first 30 days after resumption of operations; or (ii) The minimum amount which would have been required to meet his production schedule during the 45 days following the date when the work stoppage occurred, if his plant had remained in operation.

(2) At the end of the period described in paragraph (b) (1), any person may continue

to receive any material, if his resulting inventory of that particular material will not exceed the smaller of the following amounts:

(i) The minimum amount he would need during the first 30 days after resumption of operations; or (ii) The minimum amount which would have been required to meet his production schedule during the 45 days following the date when the work stoppage occurred, if his plant had remained in operation.

(3) After he has adjusted his orders as required by paragraph (c), he may also accept further deliveries to the extent permitted by paragraph (h) of Priorities Regulation 32.

(c) *Adjustment of outstanding orders after suspension of operations.* Outstanding orders calling for delivery of any material in excess of the amounts permitted by paragraphs (b) (1) and (2) must be adjusted by the customer whose operations are suspended as follows:

(1) He must postpone or cancel immediately all such orders calling for delivery of iron or steel in the current month. Also by the 15th day of the current month or immediately after the suspension of operations if it occurs after the 15th of the month, and by the 15th day of each month thereafter as long as the work stoppage continues, he must postpone or cancel all such orders calling for delivery of iron or steel in the following month.

(2) In the case of materials other than iron or steel, he must, by the 15th day of the work stoppage, postpone or cancel all such orders for delivery in the current month. Also, by the 15th day of the work stoppage or the 15th day of the current month, whichever is later, and by the 15th day of each month thereafter as long as the work stoppage continues, he must postpone or cancel all such orders for delivery in the following calendar month.

(d) *Applicability of this direction.* (1) In general. Paragraphs (b) and (c) do not apply with respect to any part of the customer's operations which is not suspended or which resumes operations, and materials may be produced and delivered by the supplier and received by the customer under these circumstances as permitted by Priorities Regulation 32. These paragraphs also do not apply to tires and tubes for original equipment which remain subject to Order R-1.

(2) *Suppliers.* Suppliers may continue to produce for a customer whose operations have been suspended, and to ship or hold as arranged with the customer, only in accordance with this direction and the applicable provisions of Priorities Regulation 32.

(e) *Resumption of operations.* As soon as operations are resumed, the customer must promptly adjust, and if necessary postpone or cancel, all his outstanding orders to the extent required by paragraph (c) of Priorities Regulation 32, and all deliveries and receipts are again subject to all provisions of that regulation.

(2) "Supplier" means any person (other than a producer) located in the 48 states or the District of Columbia, whose business consists, in whole or in part, of the sale from stock or inventory of supplies. (b) *Limitation of supplier's inventories.* (1) Except as provided in paragraph (b) (3), (4), (5), and (6), no supplier shall accept any delivery of supplies from any person which will effect an increase in the inventories of the supplier above his maximum permissible inventory; and

(2) Except as provided in paragraphs (b) (3), (4), (5) and (6), no person shall make to any supplier any delivery of supplies which such person knows or has reason to believe will effect an increase in such supplier's inventory of supplies above the supplier's maximum permissible inventory.

(3) Any supplier, regardless of where located, shall be permitted to purchase and store an amount of seasonal lines equal to those which he purchased in the peak period of a comparable period of the previous year, but this peak period shall not exceed 120 days.

(4) A supplier may accept delivery of supplies which will increase his stock above the maximum permissible inventory, if such supplier's inventory of supplies is at the time of delivery less than his maximum permissible inventory and the delivery of the minimum quantity of such supplies that can be commercially procured.

(5) A supplier may accept delivery of specific items of supplies when his stock of all items in the aggregate exceeds, or will by virtue of such acceptance exceed, his maximum permissible inventory, but only to the extent necessary to bring such supplier's inventory of those specific items (owned or consigned to him) up to a total dollar value equal to the sales of such items shipped from such supplier's inventories during the preceding month.

(6) The Civilian Production Administration may, from time to time, exempt specified suppliers or classes of suppliers from the provisions of this order, subject to such restrictions as the Civilian Production Administration may impose. Application for exemption should be made by letter.

(7) The provisions of this order shall not apply to any supplier whose total inventory at cost, including consigned stocks, of all supplies is less than \$35,000.

(8) Any person who wishes to establish an initial inventory of supplies with a value at cost of more than \$35,000, including consigned stocks, may apply for authorization to do so by filing a letter in triplicate stating the value of the inventory for which he requests authorization, the class of supplies he desires to purchase, the type of business he is entering and any other facts he considers pertinent to his case. All such applications will be processed on an equitable basis. Any amount authorized shall be-

come his maximum permissible inventory for the next four complete calendar months in the case of a supplier located in the area covered by paragraph (a) (6) (i), above, or for the next three complete calendar months in the case of a supplier located in the area covered by paragraph (a) (6) (ii), above. After this period, his maximum permissible inventory is determined by the provisions of paragraph (a) (6) (i) or paragraph (a) (6) (ii), as the case may be.

(c) *Provisions of other orders.* (1) No provision of this order shall be construed to permit the accumulation of inventories of any item of material in contravention of the provisions of any other applicable order or regulation of the Civilian Production Administration. Specifically, a supplier may not accept delivery of any material if his inventory of that material is, or will be, more than a practicable minimum working inventory reasonably necessary to meet his own deliveries on the basis of his current or scheduled method and rate of operation.

(2) All restrictions of this order, including the above restriction to paragraph (c) (1), apply to materials listed in Table 3 of Priorities Regulation 32, as well as to all other items normally accepted into a supplier's inventory. Consequently, such materials are not exempt from any of the restrictions of this order.

(d) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(e) *Records and reports.* Each supplier (other than those who are exempt under paragraph (b) (6) or (b) (7)) must keep an up-to-date record of his total net monthly sales of supplies from stock, and his total inventory of supplies at the end of each month. He need not keep a separate record of his sales and inventory of each type of supplies. A record of his sales and inventory of all kinds of supplies in the aggregate will be satisfactory. In preparing his sales record he should use net selling prices, including sales from consigned stock and excluding direct shipments. His inventory record may be based either on book inventory or physical count. Inventory valuations must be at cost and must include consigned stock. The sales and inventory data required by this paragraph must be preserved for a period of at least two years, available for inspection by authorized representatives of the Civilian Production Administration. This record keeping plan has the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942. Subject to the approval of the Bureau of the Budget, the Civilian Production Administration may at any time ask for the submission of this data.

(f) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the Civilian Production Administration, as amended from time to time.

(g) *Communications.* All communications concerning this order shall be addressed to Civilian Production Admin-

istration, Wholesale and Retail Branch, Washington 25, D. C., Ref.: L-63.

#### PART 3290—TEXTILE, CLOTHING & LEATHER

[M-328B, Direction 11]

##### USE OF M-328B CC RATINGS FOR SECOND QUARTER 1946

The following direction is issued pursuant to M-328B:

(a) *Purpose*. The purpose of this direction is to provide for the use of advance M-328B CC ratings for the second quarter 1946 and for the carry over of unused CC ratings into that quarter.

(b) *Advance authorizations*. A manufacturer who received an allocation under this order in the first quarter of 1946 which authorized him to use a CC rating to get body fabric in that quarter for making an item listed in the Preference Rating Schedules C, F, J or K, may immediately apply a CC rating for the same fabric for delivery in the second quarter of 1946 to make the same item, in accordance with the rules stated below:

(i) He must file his application for priorities assistance for the second quarter of 1946 at the time specified when the details of the second quarter program are issued by amendments to M-328B and the applicable schedules.

(ii) He may not use this advance CC rating for more than 70% of the yardage of the fabric he was authorized under Directions 9 or 10 to receive on M-328B CC rated orders in the first quarter of 1946 for an item on Schedule C, J or K. For an item on Schedule F he may not use this advance CC rating for more than 70% of the yardage for which he was assigned CC ratings on Form CPA-3732.

(iii) In placing orders under this advance authorization, a manufacturer must use Form CPA-4412 instead of Form CPA-4382. He must show the case number which he was assigned for the first quarter of 1946.

(iv) Advance CC ratings for component materials for wool items on Schedule K may be used under the rules explained in paragraph (c) (5) of that Schedule.

(c) *Carry over of unused ratings into second quarter*. A manufacturer may use valid

CC ratings to get in the second quarter of 1946 any undelivered cotton, rayon or wool fabrics for which he was assigned CC ratings under this order and for which he was unable to get delivery before April 1, 1946. In using ratings under this paragraph (c) his purchase order must be accompanied by Form CPA-4382.

#### Chapter XI—Office of Price Administration

##### PART 1337—RAYON, SYNTHETIC OR SILK GREY GOODS

[RPS 23, as Amended,<sup>1</sup> Amdt. 5]

##### RAYON, SYNTHETIC AND SILK GREY GOODS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Price Schedule No. 23, as amended, is amended in the following respects:

1. Section 1337.1 (b) is amended to read as follows:

(b) The maximum price for any construction of rayon grey goods not enumerated in Appendix A, § 1337.13, shall be a price in-line with the maximum price for the nearest related construction so enumerated: *Provided*, That when a maximum price for a construction is priced in-line with construction 6-20 or 6-25 of subparagraph (6) of § 1337.13 (a) maximum prices per yard of 27¢ and 28¢ per yard shall be used for constructions 6-20 or 6-25, respectively, in determining the price for the construction being in-line. The term "in-line with" means having a justifiable relation to such maximum price with commensurate increases or decreases to give effect to the differences in costs of the yarn used and in the weaving costs taking into account differences in (1) the number of picks, (2) the number of ends, (3) the width and (4) the weave.

2. Section 1337.3 is amended to read as follows:

§ 1337.3 *Adjustable pricing*. Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a petition for amendment is pending, or upon the Administrator's own motion, but only if the authorization is necessary to promote distribution or production, and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

3. In § 1337.13 (a) fabric numbers 6-20 and 6-25 are amended to read as follows:

6-20, 46" 100 x 72; 75 Cuprammonium, 57½ turns, 75 Cuprammonium—30¢.  
Cuprammonium  
Sheer

6-25, 48" 100 x 72; 75 Cuprammonium, 57½ turns, 75 Cuprammonium—31¢.  
Cuprammonium  
Sheer

This amendment shall become effective March 15, 1946.

Issued this 13th day of March 1946.

Administrator.

Adjustment of maximum prices in accordance with this section shall be considered when you make application for such adjustment. You shall indicate in your application the extent of the hardship being caused by existing maximum prices and the reasons for such hardship.

The Administrator may grant an adjustment on his own motion when he finds such action necessary to remove hardship.

This amendment shall become effective March 11, 1946.

Issued this 11th day of March 1946.

#### PART 1305—ADMINISTRATION

[SO 131, Amdt. 14]

##### REVISED MAXIMUM PRICES FOR CERTAIN COTTON TEXTILES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Sections 1, 2, and 3 are amended and sections 3a and 5 are added to read as follows:

**SECTION 1. How this supplementary order works.** (a) This order supplements and modifies the price schedules, regulations, and orders referred to in sections 3 and 4 with respect to the goods there designated. Except as they are supplemented and modified by this supplementary order, the provisions of those price schedules, regulations, and orders remain in force.

(b) As originally issued, this order established a "higher" and a "lower" band of maximum prices. These two bands, although retained in the text of section 4 of the order, are now supplanted in most cases by two new bands, called band A and band B. Bands A and B, appearing in section 3, are in most instances established in terms of increases over the original "higher" band ceilings. In addition, a special incentive premium is provided in section 3a for a limited list of fabrics.

(c) The applicability of the various bands is as follows:

(1) The original "lower" band of ceilings ceases to be effective on March 8, 1946.

(2) The original "higher" band of ceilings remains applicable only to those items for which band A and B maximum prices are not established. For items with band A and B maximum prices, the original "higher" band ceilings cease on March 8, 1946, to be effective as maximum prices but in most cases they constitute the basis for computation of the band A and B maximum prices.

(3) Band B ceilings may be charged by any seller.

(4) Band A ceilings may be charged only by producers who meet the requirements of section 2. In brief, band A prices may be charged only by a pro-

ducer who receives OPA's acknowledgment of the required certification that he is paying a wage increase of a specified minimum amount, except that a producer upon becoming eligible to make the certification may charge band A ceilings for 30 days thereafter, even if he has not filed the certification.

**SEC. 2. To whom band A ceilings apply, certification.** (a) Except during the limited period of time referred to in paragraph (c) below, band A maximum prices apply only to a producer who (1) has certified to the Office of Price Administration (on a form to be provided) that he is eligible to use them and (2) has received from the Office of Price Administration an acknowledgment that his certification meets the requirements of this section 2. Certifications shall be filed with the Textile Price Branch, Office of Price Administration, Washington 25, D. C. Those which meet the requirements of this section shall be acknowledged within 10 days of their filing and the acknowledgments shall bear a number and the following words: Band A OPA No. —.

(b) A producer may certify that he is eligible to charge band A ceilings only if (1) his average hourly straight time wage<sup>2</sup> during any full representative period in 1946 is at least 12½% higher than his average hourly straight time wage during any full representative payroll period after he first qualified to charge the original "higher" band of ceilings established by section 4 and (2) the wage increases involved have been approved

pursuant to Executive Order 9697. If a producer prior to March 8, 1946 had not qualified for the original "higher" band ceilings, he may certify that he is eligible to charge band A ceilings only if (i) his average hourly straight time wage during any full representative payroll period after that date is at least 12½% greater than the minimum average hourly straight time wage<sup>2</sup> which would qualify him for the original "higher" band and (ii) the wage increases involved have been approved pursuant to Executive Order 9697.

(c) Notwithstanding paragraph (a) above, any producer upon becoming eligible to make the certification there mentioned may charge band A ceilings for deliveries made during the next thirty days thereafter or until April 8, 1946, whichever is later.

**SEC. 3. Band A and Band B maximum prices.** (a) Maximum prices for the goods named below shall be the prices established by section 4 for the "higher" band, increased by the following percentages:

<sup>2</sup> A producer should compute his average hourly straight time wage by dividing his straight time payroll for a full representative payroll period by the number of straight time man hours worked in that period. The straight time payroll for the period should be appropriately increased to reflect accrued vacation pay, or employee benefits such as insurance or hospitalization.

<sup>3</sup> The qualifications for the original "higher" band appear in Appendix A.

(f) In determining the relationship of profit to net worth, the following items will be excluded from costs and expenses:

(1) Expenses which are seasonal, non-recurring, temporary or due to a reduction in volume of production below the normal economical capacity of the applicant's plant.

(2) Any wage or salary payments which, under the stabilization laws, may not be taken into account by the Administrator.

(3) Any amount paid, or obligation incurred, as a fine or civil penalty, or in settlement of any liability, on account of violation of any regulation of the Office of Price Administration.

(4) Any amount paid by the applicant for commodities or services in excess of the applicable maximum prices established by the Office of Price Administration.

(5) Items, including provisions for reserves, which are not properly chargeable as operating costs or expenses during the operating period under generally accepted accounting methods.

SEC. 4. *Form of adjustment.* Adjustments will ordinarily take the form of a uniform percentage increase over prevailing ceiling prices for all the products manufactured by the applicant which are covered by this order. The Administrator may, however, provide for increases of greater amounts on certain commodities to be offset by lesser increases or no increases on other commodities if, in his judgment, such action will result in a price structure which is better balanced or in better accord with the purposes of the stabilization program.

SEC. 5. *Where and how to apply.* Applications must be filed with the Adjustment Section, Consumer Goods Price Division, Office of Price Administration, Washington 25, D. C., in accordance with the filing requirements set forth in Article III of Revised Procedural Regulation No. 1.<sup>3</sup> In addition to the information there called for, an applicant must file the following:

(a) Data for the years 1936-1939 as called for by the Office of Price Administration form No. 403-50 (Base Period Financial Report).

(b) Balance sheets, surplus analysis, and profit and loss statements for the calendar year 1945 or the fiscal year

<sup>3</sup> 9 F.R. 10476, 13715; 10 F.R. 11295.

ending in 1945 and for the most recent interim accounting period.<sup>4</sup>

(c) Detailed data showing that 85% or more of applicant's current dollar volume of sales are commodities which are designated in Section 2 and are processed in whole or major part by him from flax, wool or cotton fiber, or any combination thereof.

(d) If raw cotton is a cost factor in the applicant's operations, he shall state, for the period covered by his most recent interim accounting statement, the typical grade and staple and the number of pounds of raw cotton consumed by him in the manufacture of the commodities covered by this order.

(e) If any approved wage increases are not fully reflected in the most recent interim accounting statement, the applicant shall also file an adjusted interim profit and loss statement giving full effect to such wage increases, explaining in detail the basis for the adjustment.

SEC. 6. *Denial of adjustments.* Ceiling price adjustments may be denied, notwithstanding the other provisions of this order, in any case where the Price Administrator has determined that the granting of an adjustment would result in increased prices for commodities not subject to price control, improperly divert raw material supplies from other uses, or otherwise imperil effective compliance with or endanger the purposes of the stabilization laws.

SEC. 7. *Reports of operations after adjustment.* Within four months after the effective date of an adjustment granted under this order, the manufacturer receiving the adjustment shall file with the Adjustment Section, Consumer Goods Price Division, Office of Price Administration, Washington 25, D. C., a balance sheet, surplus analysis and a profit and loss statement covering the first three calendar months of his operations under the order. The adjusted ceiling prices may be modified or revoked, if, in the judgment of the Administrator, the report discloses that the adjustment as originally authorized was not warranted. Nothing in this section, however, shall be construed to restrict the usual power of the Administrator to modify or revoke an order of adjustment at any time.

SEC. 8. *Adjustable pricing.* Any manufacturer may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no manufacturer may, unless specifically authorized by the Office of Price Administration, deliver or agree to

<sup>4</sup> "Most recent interim accounting period" means any consecutive three-month or longer period of operations beginning not earlier than six months prior to the date of filing the application. Normally, this period is considered to be representative of current operations; however, fluctuations in the replacement cost of cotton and approved wage and salary increases not fully reflected in the interim statements will be taken into account in determining the extent of the adjustment.

deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given by letter-order when an application for adjustment is pending under this order, but only if the authorization is necessary to promote distribution or production and will not interfere with the purposes of the stabilization laws.

This supplementary order shall become effective March 18, 1946.

NOTE: The reporting requirements of this supplementary order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 13th day of March 1946.

(11) "Section 23 real property" means property consisting of land, together with any fixtures and improvements thereon, located outside of the District of Columbia, but does not include war housing, industrial plants, factories, or similar structures and facilities, or the sites thereof, or land which the Administrator determines is essential to the use of any of the foregoing. (14) "War housing" means real properties improved with housing structures, acquired or constructed by the Government subsequent to September 8, 1939, either (i) for the purpose of housing servicemen, war workers, and their families, or (ii) by the use of funds earmarked or appropriated for the housing of persons engaged in national defense activities, and their families.

§ 8305.3 *Scope.* This part applies to surplus real property located within the continental United States, its territories and possessions, but does not include industrial, transportation, or marine industrial real property or airport property. With the exceptions above stated, it applies to real property of all kinds and classes, owned in fee simple or held under lease; to other interests in real property of whatever nature; and to surplus equipment and supplies thereon or therein which the Administrator or the owning agency determines are essential to the contemplated operation and use of the property.

§ 8305.4 *Declarations.* Declarations of surplus nonindustrial real property (whether or not section 23 real property) shall be filed with the Administrator as

provided in Part 8301.<sup>2</sup> Where there are attached to or contained in any such real property surplus equipment and supplies which the Administrator or the owning agency determines are essential to the contemplated operation and use of the facility, the installation shall be held intact by the owning agency and the real property and personalty shall be declared surplus as a unit. The Administrator will transmit to the appropriate disposal agencies declarations filed pursuant to this section and will notify the owning agencies thereof.

**§ 8305.5 Communications after notice of transmittal.** After the owning agency receives notice of the transmittal to a disposal agency of a declaration of surplus real property, communications of the owning agency with respect to such property shall be addressed to the disposal agency, except where communication with the Administrator is required hereunder.

**§ 8305.6 Withdrawals.** If the owning agency wishes to withdraw surplus real property, Form SPA-5 shall be filed with the Administrator. If the property has been assigned to a disposal agency, a complete justification shall be submitted, and the Administrator may obtain the recommendation of the disposal agency as to the requested withdrawal. The owning agency and, where appropriate, the disposal agency shall be notified of the Administrator's decision.

**§ 8305.7 Disposal of leasehold interests and improvements by owning agency—**

(a) *Leaseholds.* A Government agency owning a leasehold interest or similar right of occupancy which is no longer needed by such agency but which is needed by another Government agency shall, unless prohibited by the terms of the lease or other instrument under which the interest was acquired, transfer such interest directly to such other agency without declaring it surplus. Any such transfer shall be at the market value, unless transfers without reimbursement are authorized by law, and may be conditioned upon the transferee agency assuming all or any obligations incurred by the transferor agency in connection with the interest transferred. The owning agency shall take reasonable steps to ascertain the needs of Government agencies for such interests, and to this end may utilize the facilities of the Public Buildings Administration of the Federal Works Agency.

If such leasehold or other interest is not claimed by any Government agency within a reasonable time and the owning agency has the legal right to cancel, such lease or interest may be cancelled without declaring it surplus.

(b) *Improvements.* Where an owning agency no longer needs improvements located on Government-owned land which has not been declared surplus,

or on non-Government-owned land leased or occupied by such agency with or without an obligation to restore the premises, such owning agency may dispose of such improvements by any one or more of the following methods:

(1) By transfer to the lessor or owner of the premises in full or partial satisfaction of any obligation to restore the premises, provided the lessor or owner shall pay for any excess value;

(2) By disposition in accordance with contractual commitments;

(3) By sale intact;

(4) By demolition contract let only on competitive bid, whereby title to the improvements passes to the contractor in consideration of his demolition of the improvements or restoration of the premises.

Such disposals shall be for a consideration that is fair and reasonable under all the circumstances. Unless otherwise authorized by the Administrator, an estimate shall be made prior to disposal of both the current market value of the improvements in place and their salvage value.

**§ 8305.8 Permit or order use.** When a Government agency utilizing Government-owned real property under some form of arrangement with another Government agency having primary jurisdiction over the property no longer needs the property, such real property and any interest therein shall be returned to the agency having primary jurisdiction over the property in accordance with the arrangement between such agencies, except where the property has been substantially improved while being so utilized. In this latter event the agency utilizing the property shall make a report of the facts to the Administrator for his determination as to how the interests of the Government will be best subserved.

**§ 8305.9 Easements having no commercial value.** Any Government agency may, with or without consideration, dispose of an easement to the owner of the land subject to the easement when such agency shall determine that the easement has no commercial value and is no longer needed: *Provided*, That, when any such easement shall have been acquired for a substantial consideration such disposal shall be made only for a reasonable value, taking into consideration any portion of the purchase price paid for severance damages.

**§ 8305.10 Duties of owning and disposal agencies—**(a) *General.* Upon receipt by a disposal agency of a declaration, it shall undertake immediately to dispose of the property covered by the declaration in accordance with the requirements of the act and of this part.

(b) *Care and handling.* When any surplus real property is assigned to a disposal agency, the disposal agency shall have responsibility for the care and handling of such property pending its disposition, except to the extent that such responsibility has been or may be postponed by the Administrator pursuant to the authority vested in him by section 11 (d) of the act. In discharge of this responsibility the disposal agency shall, upon receipt of a declaration of surplus

real property, immediately contact the owning agency to work out mutually satisfactory arrangements for the disposal agency's assumption of the custody and control of, and accountability for, the property covered by such declaration. Such assumption shall be completed within sixty (60) days after the disposal agency receives the declaration, unless additional time is allowed by the Administrator. Pending the assumption of custody and control of the property by the disposal agency, the owning agency may lease it or grant a permit to place it in productive use, *Provided*, That such lease or permit shall be revocable at the will of the Government agency having jurisdiction. If arrangements are not made by lease or use permit for the care and maintenance of the property pending assumption of custody by the disposal agency, the owning agency shall take necessary steps to insure its reasonable preservation and safety.

(c) *Improvements.* Disposal agencies shall make repairs necessary for the preservation and maintenance of the property, but no funds shall be expended by disposal agencies for improvement of real property declared to them as surplus or for the erection of structures thereon unless such expenditures are authorized by the Administrator.

(d) *Transfer of title papers, documents, etc.* Upon request of the disposal agency, the owning agency shall immediately supply the disposal agency with the originals or true copies of all information and documents pertaining to the surplus real property in the possession of the owning agency and copies of which have not been filed with the declaration. These shall include appraisal reports, abstracts of titles, tax receipts, deeds, affidavits of title, copies of judgment in condemnation proceedings and all other title papers relating to the property. All such papers and documents which may still be needed by the owning agency shall be returned to it as soon as the needs of the disposal agency have been satisfied. The disposal agency may transfer to the purchaser of surplus real property, as a part of the disposal transaction, any abstract of title which relates to the property being transferred and which is no longer needed either by the owning or the disposal agency. The terms upon which such transfer shall be made may be fixed by the disposal agency.

**§ 8305.11 Priorities<sup>3</sup>—**(a) *Order of priority.* In disposing of surplus real property, disposal agencies shall recognize the following priorities:

(1) Government agencies shall be accorded first priority to acquire all classes of surplus real property for their use; *Provided*, That Reconstruction Finance Corporation, successor to Smaller War Plants Corporation, shall have such priority to acquire any such surplus property available at the will of the Government for its use and for resale as provided in

<sup>2</sup> SPA Reg. 1 (10 F.R. 14064).

<sup>3</sup> For an aid in ascertaining priorities and their order see priority chart in Exhibit C.

section 18 (e) of the Surplus Property Act of 1944.

(2) State or local governments shall be accorded second priority as to all classes of surplus real property. Any State or local government which has lost a highway or street over surplus section 23 real property because of Government acquisition or action shall be accorded a special priority, prior to all other State or local governments, to permit it to re-establish such highway or street. This right shall extend to the original right-of-way and any new or additional rights-of-way needed to re-establish the street or highway on a new or more adequate location.

(3) A former owner shall be accorded third priority as to any surplus section 23 real property acquired from him by any Government agency after December 31, 1939. This priority shall relate to property which is substantially the identical tract acquired by the Government from the owner. If this tract is not available to the former owner or is not desired by him because it is no longer suitable for the purpose for which it was used when acquired by the Government, he may be offered substitute property. Such substitute property shall be in the same area, be classified as suitable for the use for which the original tract was used when acquired and otherwise be similar to the original tract. With respect to any substitute property thus made available to him the former owner shall be accorded a priority subordinate only to the priorities of Government agencies, State or local governments, a former owner or a tenant of a former owner of the substitute property. Acquisition of a substitute tract shall extinguish the priority of the former owner with respect to the original tract. Where only a portion of an original tract acquired from a former owner is declared surplus and the circumstances indicate that the remainder of such former owner's original tract will be declared surplus within a reasonable time, the disposal agency, without affecting the priorities of Government agencies or State and local governments, may grant the former owner a priority to the portion first declared surplus and extend the same to a date ninety (90) days from the date notice is forwarded to the former owner of the availability of the entire original or substantially identical tract acquired from him.

(4) A tenant of a former owner, who was in possession of agricultural section 23 real property at the time the same was acquired by any Government agency after December 31, 1939, shall be accorded fourth priority with respect to substantially the same property occupied by him as tenant at the time of such acquisition.

(5) A veteran, and the spouse and children (in that order) of a person who died while in the active military or naval service of the United States on or after September 16, 1940, shall be ac-

corded a priority as to all surplus section 23 real property classified by the Administrator as suitable for agricultural, residential or small business purposes. This priority shall be subordinate to all the priorities described in subparagraphs (1) through (4) of this paragraph.

(6) Owner-operators shall be accorded a priority with respect to all surplus section 23 real property classified by the Administrator as suitable for agricultural use. This priority shall be subordinate to the priorities described in subparagraphs (1) through (5) of this paragraph.

(7) Nonprofit institutions shall be accorded a priority with respect to all surplus real property. This priority shall be subordinate to the priorities described in subparagraphs (1) through (6) of this paragraph.

(b) *Extent of priorities.* The priorities of Government agencies, State or local governments and nonprofit institutions are continuing priorities which are not exhausted because of their effective exercise with respect to a given piece of property. The priority of a veteran, the spouse and children of a deceased serviceman, or an owner-operator ceases to exist after it has once been effectively exercised with respect to one appropriate unit. The priority of a former owner or tenant is limited to the particular property as described in paragraph (a) (3) and (4) of this section.

(c) *Transfer of priorities and transmission on death.* No assignment or transfer of a priority shall be recognized, but the priority of a former owner may be exercised through an agent duly authorized in writing where the priority holder is so situated that he cannot exercise it in person. Upon the death of a veteran or former owner his spouse or children (in that order) shall succeed to his priority rights. The priority right of a tenant shall be extinguished by his death.

(d) *Time and method of exercise.* The time for exercise of priorities shall be a period of ninety (90) days after the date notice of availability is first published, as required by § 8305.12 (c) (2), or such additional period as the Administrator may allow when necessary or appropriate to facilitate a sale of the property to a former owner entitled to priority: *Provided, however,* That property may be disposed of prior to the expiration of such period pursuant to the provisions of § 8305.12 (e) or § 8305.12 (n) hereof. Within such period the priority holder shall indicate an intention to exercise the priority by submitting to the disposal agency a written offer to purchase, accompanied by such deposit as the disposal agency may require. When, however, an offer cannot be made because the disposal agency lacks necessary information on price, units or other matters, it shall be sufficient if the priority holder files a written statement of his desire to acquire the property or one or more appropriate units thereof. As soon

as the necessary information becomes available (whether during or after the priority period or any extension thereof), those who have filed such statements shall be so advised and given an opportunity to make an offer. Veterans, the spouse and children of deceased servicemen, and owner-operators may offer to purchase any or all units offered for sale. The offer of a Government agency or of a State or local government shall be in the form of a written application in duplicate requesting that the property be held for disposal to it. Such application shall state the price that applicant is willing to pay for the property or that a transfer without reimbursement or transfer of funds is authorized by law, and give all pertinent facts pertaining to the applicant's need for the property. If the applicant shall require time to acquire funds or authority to take the property without reimbursement or transfer of funds, it shall so state and indicate the length of time needed for that purpose. Upon receipt of an application with such a statement the disposal agency shall forward a copy of the same to the Administrator. The Administrator will review the application and determine what time (if any) shall be allowed applicant to conclude the acquisition of the property and will advise the disposal agency and the applicant of such determination. During the time thus allowed the property may not be disposed of unless the priority period has expired and applicant's price (where it is seeking to acquire the property on a reimbursable basis) is less than the maximum price it may be charged and a higher price has been offered by another person.

(e) *Failure to offer full amount or to exercise in time.* Priorities of Government agencies and State or local governments shall not expire because they are not exercised within the priority period, but an offer by such a priority holder made after the expiration of the priority period shall be disregarded if a contract to sell the property to another has previously been entered into. Priorities of all others not exercised during the priority period shall expire upon the termination of such period and the disposal agency shall certify that it has complied with the requirements of § 8305.12 (c) (2) and (3) and, if such is the case, that no person has attempted during the priority period to exercise the priority of a former owner, a tenant, a veteran or the spouse and children of a deceased serviceman. A certified copy of such certification shall be given to any purchaser of the property at the time of transfer. The disposal agency may in its discretion permit veterans, or the spouse and children of deceased servicemen, or owner-operators to make offers after the priority period and be considered on the same basis as if they had exercised their priority during the priority period, but such action on the part of a disposal agency shall not be regarded as extending the priority period. In order to exercise his priority, a priority offeror shall bid the maximum price which he may

be charged. If his bid is less than his maximum price, such bid shall be treated as a nonpriority offer.

§ 8305.12 *Disposal methods and principles*—(a) *Descriptions, surveys and subdivisions.* The disposal agency shall obtain the full and correct legal description of the property to be disposed of and take the steps necessary to determine its exact location and area. Surveys shall be made, when necessary, and markers or monuments placed upon the ground. For disposal to others than Government agencies, State or local governments, former owners or tenants, surplus section 23 real property shall be subdivided by the disposal agency into appropriate units for disposal. Section 23 real property classified as suitable for agricultural use shall be subdivided by the disposal agency into economic family-size units wherever practicable. The size of such units may vary according to the conditions and farming practices in the locality where the land is situated. Section 23 real property not classified as suitable for agricultural use shall be subdivided into such units as seem suitable in view of the character of the property, the use or uses to which it may be put and the possibilities of giving veterans and those who will use the property personally a fair opportunity to acquire and advantageously utilize the property. Plans for such subdividing shall be developed immediately after the disposal agency receives the declaration of surplus. The actual work of subdividing shall be carried forward as rapidly as practicable in view of all the circumstances, with effort made to complete the task at the earliest possible date after the expiration of the priority period. Subdivision may be delayed if it appears that the property will be absorbed by the priorities of Government agencies, State or local governments, former owners or tenants.

(b) *Evaluation and appraisal.* All surplus real property shall be valued at its current market value. This value is the highest price the property will bring in terms of money if offered for sale in the open market with reasonable time to find a purchaser buying with knowledge of the uses and purposes to which it is adapted and for which it is capable of being used. To determine such value the disposal agency shall have the property appraised by experienced and qualified appraisers familiar with the types of property to be appraised by them. They may be staff appraisers of the disposal agency, individuals employed on a loan reimbursable basis from other Federal agencies or independent appraisers in private business. All appraisal reports shall contain the appraiser's certificate that he has no interest, direct or indirect, in the property or sale or disposition thereof.

(c) *Notice and advertisement*—(1) *Wide publicity.* The disposal agency shall avail itself of all suitable means to give wide publicity to the availability for disposal of surplus real property.

(2) *Publication of notice.* Upon receipt of a declaration of surplus real property the disposal agency shall

promptly and widely publicize the same, giving information adequate to inform interested persons of the general nature of the property and its possible uses. Such publicity shall be by public advertising, and may also include press releases, display advertisements, and any other appropriate means which it is customary to use for advertising notices of sale. Such public advertising shall consist of a sale notice containing substantially the matters set forth in Exhibit A and shall be published at least three (3) times during the ninety (90) days following the date such notice is first published at approximate intervals of twenty-one (21) days, unless the property has been disposed of pursuant to the provisions of paragraph (e) or paragraph (n) hereof.

(3) *Notice by mail.* At the time of the first publication of the notice required by subparagraph (2) of this paragraph the disposal agency shall also send a copy of the notice by mail to all Government agencies listed in Exhibit B, to the State and the political subdivision in which the property is located, and to the former owner when he is entitled to priority. The notice to the former owner shall be sent by registered mail to his last known address with return receipt requested.

(4) *Additional notice.* A disposal agency which has decided to accept offers after the priority period from veterans and the spouse and children of deceased servicemen and owner-operators who have not exercised their priority during such period, may give such additional notice to such persons as the disposal agency shall deem proper.

(d) *Information available to purchasers.* Within thirty (30) days after notice is first published as required by paragraph (c) of this section, or as soon thereafter as possible, every effort shall be made to have available in the office of the officer having charge of the disposal all necessary information concerning the property. This shall include the appraised value of the property, the unit sizes in which the property will be sold to various classes of purchasers, the priorities and the time and method of exercising them, the maximum prices which may be charged different priority buyers (see paragraph (h) of this section) and all other terms and conditions of sale. Any person shall be entitled, upon request, to receive such information or have access thereto at all reasonable times, as well as information concerning offers, exercises of priorities and sales that have been made at the time of the inquiry.

(e) *Offers and procedure thereon.* During the ninety (90) day priority period, the disposal agency shall receive offers from priority and nonpriority buyers; but no offers shall be accepted until the expiration of such priority period except in the following cases:

(1) Where an immediate transfer is requested by one of the armed forces prior to the conclusion of peace, its need shall be recognized as paramount, and a trans-

fer may be made without notice to other Government agencies.

(2) Where an immediate transfer is requested by a Government agency other than as provided in subparagraph (1) above, a transfer or disposal may be made to it after ten (10) days' written notice of availability has been given to all Government agencies listed in Exhibit B, and notice of availability has been published one or more times, the first time at least ten (10) days prior to such transfer, in a newspaper published or having general circulation in the county in which the property is located, *Provided*, That no acceptable offer has been received from a holder of an equal priority showing a greater need for the property.

(3) Where an immediate disposal is requested by a State or local government or, except as to section 23 real property, by a nonprofit institution, a disposal may be made after ten (10) days' written notice of availability has been given to all Government agencies listed in Exhibit B and notice of availability has been published one or more times, the first time at least ten (10) days prior to such disposal, in a newspaper published or having general circulation in the county in which the property is located, *Provided*, That no acceptable offer has been received from a holder of a higher priority or from a holder of an equal priority showing a greater need for the property, and *Provided further*, That such disposal is approved by the Administrator.

(f) *Disposal provisions*—(1) *Terms and conditions of disposal.* Disposals generally shall be of the entire interest of the Government and for cash; but shall be made upon such terms and conditions as the disposal agency may deem necessary to protect the interests of the Government and carry out the requirements of this part.

(2) *Granting of easements.* A disposal agency may grant easements in or over real property, *Provided*, That the prior approval of the Administrator shall have been obtained where such easements affect the value of the property and, in such cases, the granting of the easements shall be for a consideration that is fair and reasonable, or without compensation when authorized by law.

(3) *Leases or occupancy permits.* The disposal agency may lease or grant a permit on surplus property to place it in productive use pending disposition, *Provided*, That such lease shall be revocable at the will of such disposal agency; and may also, with the approval of the Administrator, grant irrevocable leases where such action would be in the best interest of the Government and meet the objectives of the act.

(4) Renewal of leases and purchase of outstanding interests. The disposal agency may renew any lease in which the Government is lessee relating to surplus nonindustrial real property and shall assume and carry out any valid obligation which may have been entered into by the owning agency. The disposal agency as such shall not by exercise of any option or otherwise purchase nonindustrial real property for resale or lease without the prior written approval of the Administrator.

(g) Form of transfer. Deeds or instruments of transfer (other than leases) shall be in the form approved by the Attorney General. Transfers shall be by quitclaim deed unless the disposal agency finds that a warranty deed is necessary to obtain a reasonable price for the property or to render the title marketable and the use of such a deed is recommended and approved by the Attorney General as provided in the act.

(h) Prices; donations.—(1) General requirements. The purchasers mentioned in subparagraphs (2), (3), (4) and (5) of this paragraph shall in no event be charged more than the prices at which they are entitled to purchase under the provisions of such subparagraphs. On sales or disposals to all others it shall be the duty of the disposal agency to obtain the highest competitive price actually obtainable. No sale or disposal shall be made at a price which is more than twenty-five (25) per centum below the current market value until such sale or disposal has been reviewed and approved by the Administrator, unless that price is the maximum price which may be charged the purchaser.

(2) Former owner and tenant. Persons purchasing surplus real property pursuant to the priority of a former owner or tenant of a former owner shall be entitled to purchase at the lower of (i) the current market value or (ii) the price for which the property was acquired by the Government adjusted to reflect any increase or decrease in the value of such property resulting from action by the United States.

(3) Government agencies, State or local governments, nonprofit institutions and owner-operators. Government agencies shall be entitled to acquire surplus real property at a price equal to the fair value. State or local governments, nonprofit institutions, and owner-operators shall be entitled to acquire surplus real property at a price equal to the current market value. State or local governments purchasing rights-of-way for highways and streets, pursuant to the priority provided for in § 8305.11 (a) (2) shall be entitled to purchase the same at a rate of compensation not exceeding that paid for it by the Government. Government agencies shall be entitled to acquire property without charge where a transfer without reimbursement or transfer of funds is authorized by law. The disposal agency shall make such transfers of real property to Government agencies without reimbursement or

transfer of funds whenever a transfer on such terms by the owning agency by which such property was declared surplus would be authorized by law to be made to the agency desiring such property.

(4) Veterans. Veterans and the spouse and children of deceased servicemen shall be entitled to purchase surplus real property at a price fixed by the disposal agency after taking into consideration the current market value, the character of the property, and, if income-producing, the estimated earning capacity thereof.

(5) Disposals for educational or health purposes. State or local governments or educational or public-health institutions seeking to acquire surplus real property for educational use or to promote and protect the public health may, with the approval of the Administrator, acquire such property at the current market value less any discount allowed because of the benefit which has accrued or may accrue to the United States by such use; *Provided*, That no such discounts may be allowed to any nonprofit institutions which are not exempt from taxation under section 101 (6) of the Internal Revenue Code. Applications for such discounts shall be filed with the Administrator and shall indicate with reasonable completeness the nature of the contemplated use of the property, the basis for claiming preferential treatment, a full description of the applicant, and the ways in which and the extent to which the United States will be benefited by the proposed use. Each such application shall be accompanied by a certificate by an authorized official of the buyer that the buyer is a State or local government or that it is a nonprofit institution as defined in § 8305.2 (b) (4) and that the property is being acquired for educational or health purposes. The application also shall be accompanied by a statement from the disposal agency setting forth such information as the disposal agency is able to secure with respect to the applicant and the contemplated use by such applicant, and the disposal agency's estimate of the current market value of the property. After considering the application and any additional evidence deemed appropriate, including additional information required from the disposal agency or the applicant, the Administrator shall notify the disposal agency of his decision on the application, certifying the amount of the discount granted and directing the terms and conditions of the disposal, including provisions for the reversion of the property to the United States if the buyer ceases to use it for educational or health purposes.

(6) Donations. Surplus real property may be donated only to government agencies, State or local governments or nonprofit institutions organized and operated for educational or charitable purposes and only when the disposal agency finds that the property either (i) has no commercial value or (ii) that the cost of its care and handling and disposition would exceed the estimated proceeds.

Before making any donation, however, the disposal agency shall in all cases obtain the prior approval of the Administrator. To obtain such approval the disposal agency shall submit to the Administrator a copy of its findings, together with any supporting evidence and a full description of any donation that may be proposed.

(i) Acceptance of offers. Upon the expiration of the priority period designated in § 8305.11 (d) the disposal agency shall proceed with the acceptance of offers, except to the extent that delay is necessary to obtain offers from priority holders who filed statements of their desire to purchase during the priority period. Offers from priority holders at their respective maximum prices shall be accepted in the order of their priority. If there are several acceptable offers at the same price from offerors in the same priority group, the offer to be accepted from that group shall be selected as provided in paragraph (k) of this section. If offers have been received from persons having no priority and there is no acceptable offer from a person holding a priority, only the highest of such offers may be accepted by the disposal agency. If there are several acceptable nonpriority offers at the same price, the one to be accepted shall be selected by lot. Disposal agencies may reject any offer which is for a price below the current market value other than an offer from a priority holder for the maximum price which can be charged the offeror. When a veteran, the spouse and children of a deceased serviceman or an owner-operator shall have made offers for more than one unit, only one of the offers of such offeror shall be accepted.

(j) Proof of priority status. Before a disposal agency shall dispose of surplus real property on the basis of the priority claimed by the offeror, it shall require satisfactory proof of the priority status, identity or authority of the person making the offer.

(k) Selection of offers from among same priority group. If equal offers are received for the same property during the priority period from two or more offerors of the same priority group, the offer which shall be accepted shall be selected in accordance with subparagraphs (1) and (2) of this paragraph.

(1) In the case of Government agencies, State or local governments or nonprofit institutions the selection shall be determined on the basis of need. If the matter cannot be determined by agreement between the claimants, the disposal agency shall report the matter in writing to the Administrator, setting forth the names of the competing claimants, a summary of their respective claims, a description of the property involved, and

the recommendations, if any, of the disposal agency, together with any statements in writing which the claimants or any of them may wish to file with the Administrator. The Administrator shall review the matter and report his determination to the disposal agency. The Administrator's determination shall be final for all purposes.

(2) With respect to all other priority groups the selection shall be made by lot. Drawings shall be conducted openly and fairly. If a veteran, the spouse and children of a deceased serviceman or an owner-operator is selected for more than one unit, he shall elect in writing which one he shall take and thereupon the right to purchase the remaining unit or units of property shall go to the remaining applicants in the particular priority group in the order in which their names are drawn.

(l) *Notice to unsuccessful bidders; nonperformance by successful bidder.* When an offer for surplus real property has been accepted, the disposal agency shall notify the unsuccessful bidders of such acceptance and return their deposits to them. If performance of the contract of the successful bidder is not completed, or if a Government agency or State or local government fails to complete its acquisition of the property after having it held for the time allowed by the Administrator, the disposal agency shall promptly notify by mail all those who made unsuccessful offers during the priority period or any time allowed thereafter that if they renew their offers within fifteen (15) days from the date of mailing of the notice they will be reconsidered on the same basis on which they would have been considered had the offer accepted not been received in the first instance.

(m) *Absence of acceptable offers; methods of sale.* If no acceptable offer is received during the priority period or none results from a statement filed during the priority period, or if no acceptable offer is renewed after the giving of notice under the circumstances provided for in paragraph (l) of this section, the disposal agency shall proceed to dispose of the property by negotiated sale, auction or other suitable method. Such disposals shall be subject to the price restrictions of paragraph (h) (1) of this section.

(n) *Disposal of leasehold interests and improvements by disposal agency.* (1) Where real property held only under lease or other similar right of occupancy, with or without improvements thereon, is declared surplus, the disposal agency, after giving ten (10) days' notice of availability to all Government agencies listed in Exhibit B and ten (10) days' notice in a newspaper published or having general circulation in the county in which the property is located, may, in the absence of a proposal to take over and assume the lease submitted by a Government agency or a State or local government, cancel the lease, if legally permissible, and dispose of any structures or improvements thereon by any one of the

following methods: (i) By transfer to the lessor or owner of the premises in full or partial satisfaction of any obligation to restore the premises, provided the lessor or owner shall pay for any excess value; (ii) By disposition in accordance with contractual commitments, except where demolition or removal would be required; (iii) By sale intact; (iv) By transfer of the responsibility for demolition and disposal to the disposal agency designated to perform demolition functions.

(2) In the case of Government-owned land, the disposal agency shall, wherever practicable, dispose of improvements and fixtures with the land. If this is not practicable, the disposal agency may dispose of the improvement separately from the land by sale intact or by transfer of the responsibility for demolition and disposal to the disposal agency designated to perform demolition functions.

(o) *Disposal of personalty.* Where equipment and supplies are assigned for disposition in conjunction with real property, they may be disposed of with the real property, and any discount applicable to the real property shall apply also to the equipment and supplies. The disposal agency shall hold the real property and personalty intact until such time as the disposal agency determines that the retention of the personalty will not facilitate the disposition of the real property. *Provided*, That in no event shall the personal property be separated from the real property until such time as such property has been offered for disposition intact and the period for the submission of bids has expired. Upon such determination by the disposal agency, the declaration covering the personal property shall be forwarded to the agency designated in Part 8301<sup>4</sup> to dispose of such personalty, with notice to the Administrator, and the real property may be re-advertised for disposition without the personalty.

§ 8305.13 *Records and reports.* Owning and disposal agencies shall prepare and maintain such records as will show full compliance with the provisions of this part as to each disposal transaction. The information in such records shall be available at all reasonable times for public inspection. Reports shall be prepared and filed with the Administrator in such manner as may be specified by orders issued under this part, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 8305.14 *Regulations by agencies to be reported to the Administrator.* Each owning agency and each disposal agency shall file with the Administrator copies of all regulations, orders and instructions of general applicability which it may issue

in furtherance of the provisions, or any of them, of this part.

This revision of this part shall become effective March 6, 1946.

MARCH 11, 1946.

In the matters of Natural Gas Pipeline Company of America and Texoma Natural Gas Company, Docket Nos. G-231 and G-651; Chicago District Pipeline Company, Docket No. G-664; Michigan-Wisconsin Pipeline Company, Docket No. G-669.

Upon consideration of the joint application of Natural Gas Pipeline Company of America (Pipeline), Texoma Natural Gas Company (Texoma), and Chicago District Pipeline Company (Chicago) for an order directing that:

\* \* \* the hearing which is to be begun on March 4, 1946, shall proceed continuously, except for necessary weekend interruptions, until the taking of all evidence under the within Docket Nos. Applicants further move that a separate order disposing of the issues involved in Docket Nos. G-651 and G-664 be issued promptly after said oral arguments.

and further upon consideration of responses filed on behalf of interveners, including Coal Drivers, Helpers and Handlers Union, Local 704, of the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers, of the American Federation of Labor; Western Railroads; National Coal Association and United Mine Workers of America; Order of Railway Conductors, Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, and Switchmen's Union of North America; Central Illinois Electric and Gas Company; North Shore Gas Company; as well as objections of Michigan-Wisconsin Pipe Line Company to the separation of the consolidated proceedings;

STANDARD GAS AND ELECTRIC CO.

#### NOTICE REGARDING FILING OF DECLARATION OR APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 12th day of March 1946.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Standard Gas and Electric Company, a registered holding company and a subsidiary of Standard Power and Light Corporation, also a registered holding company.

Notice is further given that any interested person may, not later than March 28, 1946, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, said declaration or application, as filed or as amended, may be granted, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act. Any such request should be addressed: Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration or application, which is on file in the office of the said Commission, for a statement of the transactions therein proposed, which are summarized below:

Standard Gas proposes to sell to Theodore E. Shepard (a) 50,000 shares of the par value of \$100 (money of the United States of America), per share, of the capital stock of Empresa de Servicios Publicos de los Estados Mexicanos, S. A. (Empresa), a corporation organized under the laws of the Republic of Mexico, consisting of 15,000 shares described as "Fully Paid Series" and the remaining 35,000 shares described as "Assessable Series" (40% assessed and paid) and (b) a claim for indebtedness held by Standard Gas against Empresa in the principal sum of \$428,495.48 (payable in United States currency), without interest. The consideration to be paid for such stock and claim of indebtedness is \$858,000 cash. The 50,000 shares of capital stock of Empresa proposed to be sold are all of the issued and outstanding shares of capital stock of Empresa and, together with the said claim of indebtedness, constitute the entire investment of

Standard Gas in Empresa. The sale of such stock and claim of indebtedness will be made pursuant to the provisions of an agreement of sale, dated February 15, 1946, between Standard Gas and Theodore E. Shepard.

Standard states that three bids were received for the purchase of the securities pursuant to invitations mailed by the Company to fourteen interested parties requesting the submission of offers for the purchase of said securities, one of which bids was withdrawn before final action was taken by the Company upon the bids. Standard has represented that the bid of the proposed purchaser is the most advantageous of the bids received.

Standard Gas and Electric Company represents that such sale is in compliance with the Commission's order of August 8, 1941, directing the Company, among other things, to dispose of its interest in Empresa de Servicios Publicos de los Estados Mexicanos, S. A., and requests that the Commission in its order permitting the declaration to become effective or granting the application find that such sale is necessary or appropriate to effectuate the provisions of section 11 (b) of the act, and make the specifications and itemizations necessary in order that the provisions of sections 371 (b), 371 (e), and 1808 (f) of the Internal Revenue Code shall be applicable.

#### STANDARD FURNITURE CO.

#### ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 133, it is ordered:

(a) *Manufacturer's ceiling prices.* The Standard Furniture Company of Herkimer, New York, may compute its adjusted ceiling prices for an article of wood commercial furniture which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect prior to November 28, 1944, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 6.1 percent.

(2) The maximum price for an article which is first offered for sale after the effective date of this order and which is comparable to the article whose maximum price has been adjusted by this order, shall be determined under the Third Pricing Method (§ 1499.157) of Maximum Price Regulation No. 188, using as the maximum prices of the comparable articles, the prices before the addition of any adjustment permitted by this order.

(b) *Resellers' ceiling prices.* A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he has paid to, his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less any adjustment charge stated on that invoice, the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Notification.* At the time of or prior to the first invoice to a purchaser for resale showing a price adjusted in accordance with this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted ceiling prices for resales of wood commercial furniture covered by this order. This notice may be given in any convenient form.

(d) *Reports to be filed.* The manufacturer shall file the report described in section 5 of Supplementary Order No. 133 with the Office of Price Administration, Washington 25, D. C.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on March 13, 1946.

Issued this 12th day of March 1946.

Administrator.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 2 of Supplementary Order 142, *It is ordered*:

(a) The maximum prices for sales by the manufacturer, Smith, Drum and Company of 432 West Allegheny Avenue, Philadelphia 33, Pennsylvania, of all its products and industrial services which are covered by any of the regulations listed in Supplementary Order 142, shall

The phrase does not include any price adjusted upward by industry-wide or individual adjustment orders.

(b) For any product for which a price is established under Section 8 of Revised Maximum Price Regulation 136, the maximum price shall be computed under that section using the price computed under paragraph (a) of this order for the frozen priced product before change or modification.

(c) The maximum prices for sales by resellers of the products described in paragraph (a) above shall be determined as follows: The reseller shall increase the maximum net prices he had in effect to a purchaser of the same class, just prior to the issuance of this order, by the dollar-and-cents amount by which his net involved cost has been increased by reason of this order.

(d) The Smith, Brum Company shall notify each purchaser who buys the products listed in paragraph (a) above for resale of the dollars-and-cents amount by which this order permits the reseller to increase his maximum net prices for these products. A copy of each such notice shall be filed with the Machinery Branch, Office of Price Administration, Washington, D. C.

(e) All requests not granted herein are denied.

(f) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective March 13, 1946.
